

What is a 6AH battery?

A 6Ah battery refers to a battery with a capacity of 6 ampere-hours. This means that the battery can supply a current of 1 ampere for 6 hours or 2 amperes for 3 hours and so on. The actual voltage of the battery will depend on its type.

How much does a 6V battery cost?

A single 6V battery costs around \$80 to \$100 when purchased individually. Two 6V batteries in series will give you the same AH capacity, but they would cost \$160 to \$200. Either setup has its pros and cons. A twin 12V setup would also mean you could easily drop it in your tow vehicle if that battery happened to fail.

What is a 6 volt SLA battery?

6 volt SLA batteries are extremely popular in backup power supplies, like UPS backup units, and home alarm systems. UPS devices generally use F2 terminals (1/4" and) and home alarm systems use F1 (3/16" and). We also carry several types of rechargeable 6 volt batteries. What charger should I use for my 6V SLA battery?

Do You stock Halfords car batteries?

We stock our own Halfords range of high-performance 12v car batteries alongside premium Yuasa car batteries. Batteries are sold with either a 3, 4 or 5 year guarantee (battery dependant). We also stock car battery chargers and charging accessories that will help to maintain the condition of your battery, keeping it working well for longer.
