

How much do garden solar panels cost?

Garden solar panels function like traditional solar panels but are ground-mounted instead of roof-mounted and placed in your garden. They are typically more expensive than regular solar panels, costing approximately £11,700 for a 4kW system, but can help you save £660 annually on electricity costs.

How much do solar panels cost in the UK?

Cheap solar panels in the UK typically cost between £92-£246 per unit, with the average cost of a 350-watt solar panel ranging between £150-£500. Cheaper panels, like those from Amerisolar and Longi Solar, range from £92 to £246 per unit. They offer an attractive entry point, balancing affordability with decent efficiency.

Are cheap solar panels a good investment?

Cons of cheap solar panels: Lower efficiency: Cheap solar panels are more likely to be less efficient, usually around 18-21% efficient rather than 20-23% efficient. Affordability hurdle: The upfront cost of solar panels, even cheap ones, is still a significant investment that may only be affordable for some homeowners.

Are affordable solar panels better than premium solar panels?

While affordable solar panels may have lower efficiency levels compared to premium options, it's still important to review the efficiency ratings of different brands. Higher efficiency panels will generate more electricity from sunlight, maximising your energy production.

How much does it cost to clean solar panels?

You can also hire someone to do it professionally, which will usually cost around £10 per panel- so the total cost will depend on how many panels you have. If it snows on your panels, don't brush it off, as this will probably cause them damage. It'll melt on its own. To learn more, read our guide to solar panel cleaning.
