

How do I connect my BBU battery back-up?

Be safe in case you need it in future. Place the enclosed sticker over the USB port. We ask you to do this because if, for example, you use the USB port to charge a phone, the BBU battery won't last as long during a power cut. Then connect the Hub to the Battery Back-up using the color-coded cable. Red wire to red terminal. Then slide the battery into the Hub.

What is battery back-up?

Battery Back-up is for desktop use. Recycle the battery in a recycling centre. Never dispose of a battery in a fire. Your product might interfere with other electrical equipment - like TV and radio sets, clock/alarms and computers - if placed too close. When not in use store in a dry place.

How do I connect a battery back-up to my hub?

1. Connect the Battery Back-up to the mains electricity supply using the power cable. And switch the power on at the mains socket. The Battery Back-up power cable is connected to the Hub. Identify your Hub. If your Hub has the Settings Card on the Side choose the cable with the correct color.

How do I back up a battery?

1. Connect the battery to the Hub. Slide open the battery cover. Press in and push downwards. Slide the battery back in part of the way so you can connect it to the Hub.

What is the storage temperature of the battery back-up?

Storage temperature: 0°C to 40°C. This Battery Back-up is provided by CyberPower Inc., a company registered in the USA, which is a separate entity to BT and its group companies. BT is not liable for any defect of the battery or damage caused by the product. ©2023 Cyber Power Systems (USA), Inc. CyberPower is a registered trademark and brand name.

How do you know if a power bank has a battery?

Most power banks have lights to show how much charge is left. Some have a small screen that shows the percentage. Either option works, but if you like knowing the exact battery level, go for one with a screen. To sum it up, here's a quick guide based on your needs:
