

Despite lithium battery shipping restrictions, lithium batteries can be shipped by air but not without stipulations. Lithium metal and lithium ion cells and batteries shipped by themselves (meaning alone and not installed in a device or packed with the device they will power) are forbidden to be shipped as cargo on a passenger aircraft.

UN 3480, Lithium ion batteries (shipped by themselves) UN 3091, Lithium metal batteries contained in equipment or packed with equipment; UN 3481, Lithium ion ...

Here is a comprehensive overview of international regulations and safety standards for battery shipping. 1. Classification of Batteries as Dangerous Goods. Batteries, particularly lithium-based ones, are classified as dangerous goods by international regulatory bodies. The most commonly shipped batteries include: Lithium-Ion Batteries (UN3480 ...

Unfortunately, shipping batteries abroad may place them in hot and humid conditions, so care needs to be taken and regulations followed. OK, so the risk is very small, but as the number of items and gadgets being shipped across the world is massive, there have been incidents so the risk can't be taken lightly.

Bulk AA Batteries; Bulk AAA Batteries; Bulk C Batteries; Bulk D Batteries; Bulk 9V PP3 Batteries; Bulk CR123A Batteries; Bulk CR13N Batteries; Bulk CR1620 Batteries; ...
