

# Battery installation tutorial for power distribution cabinet

How do I install a Powerware Battery Cabinet?

Visit or contact an Eaton Customer Service Representative for information on how to obtain copies of these manuals. Create an installation plan for the battery cabinet (Chapter 2). Prepare your site for the battery cabinet (Chapter 2). Inspect and unpack the battery cabinet (Chapter 2).

How do I install a standalone battery system?

To install a standalone battery system, proceed to paragraph 3.3.3. Use this procedure to join battery cabinets to the Powerware 9390 UPS cabinet (see Figure 3-2). The battery cabinet may be located to either the left or right of the UPS cabinet. The recommended location is to the left of the UPS cabinet.

How do I connect a ups to a battery cabinet?

**INTER-CABINET WIRING ACCESS TO ROUTE WIRES BETWEEN CABINETS.** NOTE necessary, for connecting cables between the UPS and battery cabinet and between battery cabinets. Use Class 1 wiring methods (as defined by the NEC) for control wiring. Install the control wiring in separate conduit from the power wiring. The wire should be rated at 48V, 1A minimum.

How do I install a Powerware 9390 Battery Cabinet?

Secure all battery cabinets by closing and latching the doors. After the battery cabinets are installed and wired, return to the appropriate Powerware 9390 UPS Installation and Operation Manual, as referenced in paragraph 1.6, to complete the UPS wiring. The final step in installing your battery cabinet is to complete the Installation Checklist.

Can a battery cabinet be installed as a line-up-and-match system?

Each battery cabinet can be installed as a line-up-and-match or standalone system. The term line-up-and-match refers to battery cabinets that are physically attached to the UPS, share internal wiring, and use the battery cabinet breaker as the battery isolation device.

How do I install a battery cabinet?

Prepare your site for the battery cabinet (Chapter 2). Inspect and unpack the battery cabinet (Chapter 2). Unload and install the battery cabinet, and wire the system (Chapter 3). Complete the Installation Checklist (Chapter 3). Have authorized service personnel perform preliminary operational checks and startup.
