Ground-mounted solar farms: Bifacial panels are ideal for large-scale solar farms placed on open land or in solar fields where they can use trackers to increase energy production. Rooftop installations: Bifacial panels can be used on ...

The amount of reflected light directly influences the effectiveness of bifacial panels. Bifacial and monofacial solar panels look different. Bifacial panels have a slim profile compared to monofacial panels. They often have minimal framing and are enclosed in a thin, transparent layer of either a dual-glass design or a clear back sheet.
