

Equipment name of Nouakchott material battery

What is the NAATBatt lithium-ion battery supply chain database?

The NAATBatt Lithium-Ion (li-ion) Battery Supply Chain Database is a directory of companies with facilities in North America representing the li-ion battery supply chain.

What is NREL & NAATBatt?

NREL has developed the database with funding from NAATBatt International --a trade association of more than 220 companies that promotes the development and commercialization of electrochemical energy storage and the revitalization of advanced battery manufacturing in North America.

Which Li-ion battery supply chain segments are included in the database?

The database features companies within the following li-ion battery supply chain segments as well as support facilities, such as equipment manufacturing and research. To include your company's information in the database or update information in the database, please complete a questionnaire.
