

Why should Fiji invest in solar power?

By harnessing the abundant solar resources of the region, this project aligns with Fiji's national target of achieving 100% renewable electricity and its international commitments to reduce greenhouse gas emissions by 30% by 2030, thus improving living standards, health outcomes, job creation, climate resilience and food security.

What is the Fiji rural electrification support project?

The Fiji Rural Electrification Support Project will expand and upgrade a mini-hydropower facility and install a solar photovoltaic-based mini-grid together with battery energy storage system in remote locations.

Who owns ADB in Fiji?

Established in 1966, it is owned by 68 members--49 from the region. ADB and the Government of Fiji today signed a grant agreement totaling \$3 million to help Fiji gain better access to renewable energy through the Rural Electrification Support Project.

What is Taveuni solar & battery?

It is the first large-scale grid export solar and battery solution to be deployed in the country, providing the benefit that the battery system can stabilise the grid when sun days are low. It also saves on diesel generation that has been used to deliver electricity to the Taveuni grid in the past - cutting emissions in the process.

How much money will ADB give to Fiji?

The Japan Fund for Prosperous and Resilient Asia and the Pacific will provide \$3 million grant financing to be administered by ADB. The Government of Fiji will contribute \$400,000 in counterpart financing.

Where is Fiji's New solar plant located?

This new solar plant is situated at the Mua Research Centre in the north of Taveuni, an international centre for palm and coconut research owned by the Fijian Government and is poised to bolster the island's existing generation capacity.

PRIME Minister Sitiveni Rabuka says an investment from Google is projected to create more than 3600 jobs by 2030. Speaking at the Google ICT Facility groundbreaking ...
