

We recently upgraded the solar on our sailboat by installing a 330W Xantrex Solar Max panel on top of our bimini canvas. This video showcases:- Why we chose a...

The Rubicon VSS System is available as a stand alone solar panel or as a complete plug-and-play system including a waterproof MPPT charge controller, clear vehicle vinyl and everything necessary for a clean installation. Pricing starts at \$199.

The first thing you need to do is choose the right panels for mounting the solar panel on Biminis. You can choose from a wide range of solar panels. They come in various sizes and you easily find the one that matches the Biminis of your ...

What Can You Power with Solar Panels? A solar panel is only as good as what you can charge with it! It would be a bummer to get a solar panel setup all ready to go only to find out you can't use it for what you were ...

The new carbon hardtop solar bimini redefines Oyster Yachts' renowned protected cockpit and helms position. The sleek structure offers permanent protection for guests and helmsman from the sun and elements, whilst harnessing solar energy to charge lithium-ion batteries, enhancing silent running performance.

Therefore, no need for retrofits for newest panels!! Standard Solar Hardtop Example (1110 watts) includes 2 x 380 watt LG Rigid Solar Panels, 2 x 175 watt Sunpower Semi Flexible ...

Click here to see the complete Atlantic Towers HiLine hardtop story. HiAmp HiLine hardtops are available in 216 watt or 420 watt arrays. Or depending on overall size of the hardtop, they ...

We just moved onto an Endeavour TrawlerCat 48, and I'm working toward a pretty bonkers power setup (30kwh of lifepo4, 48v powerwall, 10kva split phase inverter setup), and the last thing I need to finalize is the solar aspect. The hardtop currently has a bunch of stuff on it, shown in the mockup. An old KVH tracphone

dish, which I'll take down and sell, an old ...
