

How to clean the outside of the wall-mounted solar panel

How do you clean solar panels?

The best way to clean solar panels is to use a soft-bristled brush or squeegee specifically designed for solar panels, along with a mild soap or specialized cleaning solution. Avoid abrasive materials, excessive pressure, and cleaning during the hottest part of the day. Rinse thoroughly and dry the panels to prevent water spots.

Should you clean solar panels from the ground?

Safety first: Always prioritise safety when cleaning solar panels, especially if they are on rooftops. Most systems can be cleaned from the ground using a long-handled brush, reducing risk. If you can't reach the panels safely or are unsure about the process, hire a professional, as annual cleaning is typically sufficient.

How to clean solar panels without scratching the surface?

Soft-Bristle Brush: Designed to clean solar panels without scratching the surface. Hose with Spray Nozzle: For rinsing dirt and grime effectively.
