

How to guarantee the three-year warranty for lead-acid batteries

How long is a car battery warranty?

Most manufacturers offer a warranty of around 36 months as standard. Some high-performance batteries may provide warranties extending to 60 months or more. Car battery warranties often vary based on the type of battery. For instance, traditional lead-acid batteries usually come with a warranty of three years.

Does Halfords offer a car battery guarantee?

If you've bought a new car battery from Halfords, take a read below to find out about our car battery guarantee. Depending on the car battery you've bought, it'll have a guarantee period of 3/4/5 years or lifetime. Have a look at the label on your new battery to find out the period of your car battery's guarantee.

What is a car battery guarantee?

Lifetime guarantee refers to the lifetime of your vehicle (unfortunately not the customer!) Your car battery guarantee isn't transferable between vehicles.

How can battery maintenance improve warranty coverage?

Maintenance Practices: Regular maintenance can help extend a battery's lifespan and enhance warranty coverage. Neglecting maintenance tasks, like checking battery terminals for corrosion, can lead to failures not covered by warranty.

Can I get a new battery after a warranty period?

Some warranties offer a free replacement during the initial period and then switch to a pro-rata payment structure. This means you may receive partial credit toward a new battery after the initial period. Additionally, registration may be required to validate your warranty.

How long do lead-acid batteries last?

According to a 2019 study by the Battery Council International, premium lead-acid batteries can last over 6 years with proper maintenance. This durability stems from the use of advanced manufacturing techniques and superior lead-alloy materials. Examples include brands like Optima and DieHard, which are known for their long-lasting products.
