

How to install batteries in automated electric cabinets

How do I install a battery cabinet?

Between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location. If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet.

How to connect UPS CABI & Battery Cabinet?

The wiring between the UPS and battery cabinet is to be provided by the customer. When installing external interface wiring (for example, battery breaker shunt trip) to the battery cabinet interface terminals, conduit must be installed between the battery cabinets and the UPS cabinet.

How do I install a 9395 model 1085 Battery Cabinet?

The 9395 Model 1085 battery cabinet is designed to be installed in a standalone configuration using two to four battery cabinets. Power wiring is installed externally between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location.

How do I install the 9395 model IBC-L Battery Cabinet?

The 9395 Model IBC-L battery cabinet is designed to be installed in a standalone configuration using up to two battery cabinets. Power wiring is installed externally between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location.

How many volts should a battery cabinet have?

600V. The wiring should be a minimum of 18 AWG rated at 48V, 1 A minimum. All interface wiring between the UPS and battery cabinet is to be provided by the customer. When installing external interface wiring (for example, battery breaker shunt trip) to the battery cabinet interface terminals, conduit must be installed between the battery cabinets and the UPS cabinet.

What happens if I don't follow the instructions on the battery cabinet?

Failure to follow these instructions can result in injury or equipment damage. The modular battery cabinet must only be used with the Easy UPS 3S with internal batteries. Failure to follow these instructions will result in death or serious injury.
