

# How to install the battery panel on the wireless panel

How do I install and Configure my Blink solar panel mount?

The following easy steps explain how to install and configure your Blink Solar Panel Mount. You must first have a fully functional Blink Outdoor (3rd Gen) camera set up in your Blink account, before attaching the camera to the mount. In addition, the lithium batteries must remain in your outdoor camera before connecting it to the solar panel mount.

How do I adjust the solar panel & camera?

When you have the unit mounted in an optimal location, the solar panel and camera can be adjusted at different angles and rotated as needed. In the Blink app you will see External Power as "OK" for the status in the Outdoor (3rd Gen) camera's settings, once the batteries in the Solar Panel Mount have a charge.

How do you install a solar panel?

Press the sides of the back plate against the back of the panel, making sure there is no gap between the back plate and the panel. Press the panel onto the mounting bracket, and then slide the panel down until it locks into place. Plug the opposite end of the power supply into an electrical outlet. The panel automatically powers up.

How do you attach a panel to a wall?

Attach the panel's back cover, gently pressing it into place. Press the sides of the back plate against the back of the panel, making sure there is no gap between the back plate and the panel. Press the panel onto the mounting bracket, and then slide the panel down until it locks into place.

How do I replace a battery?

To replace the battery: Press down on the battery cable header tab, and then carefully pull down on the header, releasing it from the connector on the panel. Remove the battery and dispose of it properly. Insert the new battery's header into the battery port on the panel.

How do I remove the plastic wrap from the solar panel?

1. Detach the mounting bracket from the back of the Solar Panel by pulling down on the bracket. After the bracket is removed, you will be able to easily remove the plastic wrap from the Solar Panel Mount. 2. Remove the pull-tab from the battery compartment (located on the back of the unit) by removing the screws on the left and right sides.
