

How much is the global industrial batteries market worth?

Energy & Power | September 2023 | Report ID: EMR00199 | Pages: 217 The Global Industrial Batteries Market was valued at USD 18.2 billion in 2022 and is estimated to reach approximately USD 42.5 billion by 2031, at a CAGR of 9.8% from 2023 to 2031.

What is the market size of industrial batteries in revenue (USD)?

The Report Offers the Market Size and Forecasts for Industrial Batteries in Revenue (USD) for all the Above Segments. The Industrial Battery Market size is estimated at USD 37.82 billion in 2024, and is expected to reach USD 82.23 billion by 2029, growing at a CAGR of 16.80% during the forecast period (2024-2029).

What is the industrial batteries market?

The industrial batteries market can best be described as a dynamic and complex landscape affected by several interrelated elements. Technology advancements are essential as new battery chemistries, greater energy densities, and longer lifespans are produced by ongoing research and development.

How big is the industrial battery market in 2024?

The Industrial Battery Market is expected to reach USD 37.82 billion in 2024 and grow at a CAGR of 16.80% to reach USD 82.23 billion by 2029. EnerSys, Exide Industries Limited, East Penn Manufacturing Company Inc., Amara Raja Batteries Ltd and GS Yuasa Corporation are the major companies operating in this market.

Which region has the largest industrial battery market in 2022?

Asia Pacific emerged as the leading region, capturing the largest market share in 2022. The area has experienced tremendous industrialization and economic growth, which has raised the need for dependable power sources for infrastructural expansion and technological improvement. As a result, the market for industrial batteries is flourishing.

Who are the key players in the global industrial batteries market?

Some of the prominent players in the global industrial batteries market include Johnson Controls, Inc.; Exide Technologies, Inc.; EnerSys, Inc.; Saft Groupe S.A.; GS Yuasa Corp.; Northstar Battery Company LLC; C&D Technologies, Inc.; Robert Bosch GmbH; East Penn Manufacturing Co., and various other key players.

We present the largest and most influential battery manufacturers, exploring their market positions and strategies that have enabled them to dominate the industry.

Ranking of Industrial Battery Manufacturers Global home energy storage capacity will reach 70GWh by 2025. Industry data show that global home energy storage shipments increased to 4.5GWh in 2020, with a compound annual growth of more than 50%, and the distribution of regional and home energy storage manufacturers are more concentrated.

Lithium-ion chemistry is the most widespread in rechargeable battery cells, including nickel-manganese-cobalt-oxide (NMC), nickel-cobalt-aluminum-oxide (NCA), lithium ...

The India Battery Market is expected to reach USD 8.41 billion in 2025 and grow at a CAGR of 16.80% to reach USD 18.28 billion by 2030. Exide Industries Ltd, Luminous Power Technologies ...

This article will introduce the top 10 battery manufacturers in Europe, leading the industry in technological innovation, market share, and product diversity. By delving into the backgrounds ...

Battery-industry news breaks globally literally multiple times a day, every day. There is a lot to follow and try to evaluate. So, at the cusp of a new year, we would like to step back from this sprawling story and bring to your attention some of its most important narrative threads. Following are eight battery industry trends to watch in 2025.

The global industrial batteries market size was valued at USD 21.22 billion in 2023 and is projected to grow from USD 22.51 billion in 2024 to USD 41.28 billion by 2032, ...

According to MNI's survey of hundreds of U.S. battery companies, these are the latest statistics on the industry: The U.S. serves as home to 292 battery companies, providing 34,891 jobs. Despite the ...

Industrial Batteries Market Size & Trends . The global industrial batteries market size was valued at USD 22.44 billion in 2024 and is expected to grow at a CAGR of 7.6% from 2025 to 2030. This growth is attributed to the rising demand for ...

Figure 28 Stationary Battery End-use Industry to Lead Industrial Batteries Market During Forecast Period ...
Figure 35 Ranking of Top 5 Players in Industrial Batteries Market, 2023 ... The Industrial Battery market is a subset of the larger Battery Technology industry. It focuses on the development and production of batteries for industrial ...

The global battery value chain, like others within industrial manufacturing, faces significant environmental, social, and governance (ESG) challenges (Exhibit 3). ... The battery ...

Anhui Eikto Battery Co., Ltd. is a global provider of new energy applications and solutions, the company specializes in industrial vehicle lithium-ion batteries, new energy marine lithium-ion batteries, lithium-ion batteries, lithium-ion batteries, heavy-duty trucks, energy storage products R & D, production and sales, with an annual output of up to 3.2GWh, with excellent R ...

China International Battery Fair (CIBF) is an international meeting and the biggest exhibition activity on battery industry, which is sponsored by China Industrial Association of Power Sources. ...

Standard battery pack GS2040CH (3S1P) suitable for use with industrial and medical devices, etc. Introducing the GS2040CH Customizable Battery Pack, designed to power handheld x-ray scanners ... Compare this product Remove from comparison tool

The Industrial Battery Market is expected to reach USD 44.17 billion in 2025 and grow at a CAGR of 16.80% to reach USD 96.02 billion by 2030. EnerSys, Exide Industries Limited, East Penn Manufacturing Company Inc., Amara Raja Batteries Ltd and GS Yuasa Corporation are the major companies operating in this market.

The motive power segment led the global industrial batteries industry with the largest revenue share of 32.7% in 2024, primarily driven by increasing electric vehicle adoption, automation trends, and corporate ESG goals.
