

We have been producing metallised film capacitors of the very highest quality since 1974. We offer an extensive catalogue of polypropylene and polyester dielectric components offering solutions in industrial drives, power conditioning, EMC filtering, aerospace, railway signalling, welding, induction heating, wind and solar energy to name but a few.

Find your industrial capacitor easily amongst the 123 products from the leading brands (Taiyo Yuden, Murata, TDK Electronics, ...) on DirectIndustry, the industry specialist for your professional purchases.

Marsh Electronics offers one of the broadest selections of capacitors in the electronics industry, and we represent leading capacitor manufacturers. With our manufacturers, we can support and meet your application requirements. For unique and custom applications, our on-staff engineer can help you choose the correct capacitor for your application.

Find your high-voltage capacitor easily amongst the 67 products from the leading brands (Omicron, TDK Electronics, Cefem, ...) on DirectIndustry, the industry specialist for your professional purchases.

Find your capacitor easily amongst the 750 products from the leading brands (Taiyo Yuden, Murata, Omicron, ...) on DirectIndustry, the industry specialist for your professional purchases.

A capacitor is a passive device on a circuit board that stores electrical energy in an electric field by virtue of accumulating electric charges on two close surfaces insulated from each other. This is a list of known capacitor manufacturers, their headquarters country of origin, and year founded.

Explore leading brands in capacitor manufacturing like Cornell Dubilier, Panasonic, and more for reliable and high-performance electronic subsystems.

Our range includes over 60,000 different capacitors including aluminium, tantalum, polymer, polyester film and ceramic capacitors. We source from globally renowned manufacturers AVX, Murata, KEMET, Panasonic, TDK and many more, so that you can rely on performance.

Capacitor Industries distributes aluminum electrolytic, motor run, high voltage capacitors and more with a large inventory and competitively low pricing.

OverviewACEGHKMA capacitor is a passive device on a circuit board that stores electrical energy in an electric field by virtue of accumulating electric charges on two close surfaces insulated from each other. This is a list of known capacitor manufacturers, their headquarters country of origin, and year founded. The oldest capacitor companies were founded over 100 years ago. Most older companies were founded during the AM

radio era, which includes the World War II era and post war era. As the de...
