

Do batteries rank better than other brands?

Ranking brands is different from ranking batteries, of course, and it turns out to be a lot more complicated. You cannot necessarily trust that every battery made by one brand is automatically better than every comparable battery from any other given brand.

Should you buy a car battery by brand?

Our latest tests show that shopping for a car battery by brand name alone can be a big mistake, both in terms of performance and in cost. But our latest Ratings make it easy to find the best one for your needs and budget, no matter what you drive.

Are AGM batteries any good?

All other AGM batteries in this test scored much better in the life test. AGM batteries also typically cost more than conventional designs, and only one other battery in our Ratings carries a higher price than the \$180 we paid for the DieHard Advanced Gold 50748.

Are AGM batteries better than EFB batteries?

AGM batteries are also suitable for cars with start-stop systems, but they offer the potential for many more starts than an EFB battery and will have a longer service life. As you might expect, they are the most expensive to buy, but their durability could make them the most economical in the long-term.

Are lead acid batteries better than AGM batteries?

Lead acid batteries are an older technology--you don't have to refill them with distilled water anymore--while AGMs are modern and fit in vehicles with more advanced electrical systems. You can swap an AGM battery into a car that came with lead acid, but not vice versa. Lead acid batteries cost less, but they won't hold a charge as long as an AGM.

Are Duracell batteries better than Gigazine batteries?

Taking the two brands as one, there's a lot of variation in test results, but overall many more wins than losses. Duracell had three batteries (Duracell Coppertop Duralock AA Alkaline, Duracell Quantum AA Alkaline, and Kirkland Signature (Costco) AA Alkaline) at the top of Consumer Reports' last battery roundup, and two in Gigazine's as well.
