

Lisbon Energy Storage Policy Latest Announcement

How much gas is stored in the EU?

This amounts to about 100 bcm of gas in storage in the EU, representing around one third of the EU's annual gas consumption. Today, the Commission adopted intermediate targets that EU countries are required to meet in 2025 to ensure gas storage facilities are filled to at least 90% of capacity by 1 November 2025.

How much will Portugal spend on energy storage & grid flexibility?

The Portuguese Ministry of Energy has allocated EUR99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

What are the EU gas storage targets for 2025?

Today, the Commission adopted intermediate targets that EU countries are required to meet in 2025 to ensure gas storage facilities are filled to at least 90% of capacity by 1 November 2025, as required by the EU Gas Storage Regulation (EU/2022/1032).

How many BCM of gas is stored in the EU?

Each year since the introduction of the Regulation during the energy crisis, the EU has exceeded its gas storage filling target. This year, storage was around 95% by the deadline of 1 November. This amounts to about 100 bcm of gas in storage in the EU, representing around one third of the EU's annual gas consumption.

Does Portugal need energy storage?

From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on Wednesday that it has allocated EUR99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

When will the EU gas regulation enact a new target?

The implementing regulation defines targets for 1 February, 1 May, 1 July and 1 September 2025 for those EU countries with underground storage facilities on their territory and for EU countries that are connected through the gas network.

The Portuguese Ministry of Energy has allocated EUR99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025.

The Lisbon Energy Summit Hydrogen & Decarbonisation Conference will assemble the industry's leading players to discuss technological breakthroughs, and challenges in upscaling the global hydrogen economy and

Lisbon Energy Storage Policy Latest Announcement

showcasing the latest decarbonisation solutions and strategies.

Endorsed by the Ministry of Environment and Energy, the Lisbon Energy Summit & Exhibition 2025, the Iberian region's leading energy transition event, will welcome over 2,000 visitors to Lisbon, Portugal, a world leader in new energies and technological innovation, on 27 - 29 May 2024. ... The technical storage or access that is used ...

21 ???· Group of EU Nations Holds Talks on Relaxing Gas Storage Targets EU target is 90% by Nov. 1 under rules made in energy crisis European Commission would like to renew ...

Responding to the Government's announcement to support long duration energy storage, Naomi Baker, Senior Policy Manager at Energy UK, said: "Energy UK welcomes today's announcement of a cap and floor financing scheme to support long duration energy storage providing long-term certainty and supporting investment, the UK is re-affirming its ...

As renewable energy continues to expand in Europe, energy storage must keep pace to ensure the grid remains flexible and stable. The Energy Storage Coalition urges the European Commission to develop an ...
