

Which countries export lithium-ion batteries in 2021?

In 2021, China exported lithium-ion batteries to more than two hundred countries and regions worldwide. The publisher's analysis shows that Hong Kong SAR, Vietnam, India, the United States, South Korea, Germany, Poland, Malaysia, Hungary and Taiwan are China's major lithium-ion battery export destinations by export volume.

Is China's Lithium-ion battery export market a bright future?

China is the world's leading producer and exporter of lithium-ion batteries. With the development of new industries such as electric vehicles worldwide, the publisher expects that China's lithium-ion battery export market has a bright future. Topics covered:

What is the global demand for lithium-ion batteries?

As downstream applications continue to expand, the global market demand for lithium-ion batteries continues to rise. According to the publisher's analysis, China is the world's leading producer and exporter of lithium-ion batteries, exporting large quantities of lithium-ion batteries every year.

How much does a battery cost in China?

Indeed, the average global per-kilogram export price of China's lithium-ion batteries fell from \$32.9 in 2020 to \$20.1 in 2024. Remarkably, Chinese per-kilogram battery export prices to the United States are the lowest in the world--only continental Latin America even comes close. Tariffs don't seem to be playing a major role.

Are battery exports increasing or decreasing in China?

Chinese trade data shows that battery exports by weight have increased year-over-year, while their export value has declined. In 2024, the United States imported 923,000 tons, slightly less than the EU's 938,000 tons. However, comparing volumes has limitations since batteries vary widely in function and are not interchangeable commodities.

Where are lithium batteries made?

Source: JRC analysis. The supply of each processed raw material and components for batteries is currently controlled by an oligopoly industry, which is highly concentrated in China. Although China is expected to continue holding a dominant position, geographic diversification will increase on the supply side, mostly for refined lithium.

4 ???· In 2021, the average lithium battery export price amounted to \$95,114 per ton, rising by 2.6% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Israel. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price developments ...

The publisher's analysis shows that Hong Kong SAR, Vietnam, India, the United States, South Korea, Germany, Poland, Malaysia, Hungary and Taiwan are China's major ...

Sources IEA analysis based on data from Bloomberg and Bloomberg New Energy Finance Lithium-Ion Price Survey (2023). Notes "Battery pack price" refers to the ...

In 2021, the average lithium battery export price amounted to \$95,116 per ton, growing by 14% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Malaysia. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price ...

In 2021, the average lithium battery export price amounted to \$25,238 per ton, growing by 9.6% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Portugal. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price ...

In 2021, the average lithium battery export price amounted to \$41,434 per ton, rising by 44% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Pakistan. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price ...

The average lithium battery export price stood at \$63,867 per ton in 2021, flattening at the previous year. ... This report provides an in-depth analysis of the lithium battery market in Algeria. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price developments, as well as ...

In 2021, the average lithium battery export price amounted to \$94,476 per ton, surging by 13% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in the Philippines. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price ...

4 ???· In 2021, the average lithium battery export price amounted to \$59,724 per ton, falling by -2% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Republic of Korea. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price ...

4 ???· The average lithium battery export price stood at \$85,708 per ton in 2021, declining by -16.1% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Saudi Arabia. Within it, you will ...

In 2021, the average lithium battery export price amounted to \$183,580 per ton, rising by 2.5% against the

previous year. ... This report provides an in-depth analysis of the lithium battery market in Nigeria. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price ...

In 2021, the average lithium battery export price amounted to \$59,880 per ton, rising by 9.9% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Singapore. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price ...

The publisher's analysis shows that the average price of China's lithium-ion battery exports grows continuously from 2018-2022. The average price of China's lithium-ion battery exports maintains a 10%-15% growth rate in 2018-2021, rising from US\$5.58 each in 2018 to US\$8.29 each in 2020. From January to October 2022, the average price of China's lithium ...

In 2021, the average lithium battery export price amounted to \$49,006 per ton, increasing by 33% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Poland. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price ...

What is the average export price for lithium cells and batteries in the EU? The export price in the European Union stood at \$62,944 per ton in 2021, surging by 11% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in the U.S.. China - Lithium cells and batteries - Market Analysis ...

The average lithium battery export price stood at \$108,998 per ton in 2021, rising by 30% against the previous year. ... This report provides an in-depth analysis of the lithium battery market in Sri Lanka. Within it, you will ...
