

# Lithium battery industry development analysis report

What is the lithium-ion battery market report?

The Lithium-Ion Battery Market report offers qualitative and quantitative insights on lithium-ion batteries and a detailed analysis of market size & growth rate for all possible segments in the market. Along with this, the report provides an elaborative analysis of market dynamics, emerging trends, and competitive landscape.

Why is the global lithium-ion battery market growing?

The global lithium-ion battery market is experiencing significant growth driven by the increasing demand for electric vehicles, consumer electronics, and renewable energy integration.

How will rising demand for lithium-ion batteries affect the battery industry?

Rising demand for substitutes, including sodium nickel chloride batteries, lithium-air flow batteries, lead acid batteries, and solid-state batteries, in electric vehicles, energy storage, and consumer electronics is expected to restrain the growth of the lithium-ion battery industry over the forecast period.

Which battery companies are leading the lithium-ion power battery industry?

The boom of global new energy vehicles gives impetus to lithium-ion power battery industry whose shipments swelled 16.6% over the previous year to 116.6GWh in 2019. Five Chinese companies, namely CATL, BYD, AESC (acquired by Envision), Guoxuan High-tech (Gotion) and Lishen Battery rank among top the 10 battery companies by shipments.

How is the lithium-ion battery market segmented?

The Lithium-Ion Battery market is segmented into products and applications in our research scope. In 2021, the LCO segment's revenue share was over 30%, which was the highest.

Why are lithium-ion batteries used in consumer electronics products?

Due to their ability to be recharged, lithium-ion batteries are frequently employed in consumer gadgets. Lithium-ion battery packs offer high power and superior energy density compared to other battery types. The demand for lithium-ion batteries in consumer electronics goods is rising due to these factors.
