

Does FedEx ship lithium batteries?

FedEx adheres to IATA regulations for shipping lithium batteries by air and ADR regulations for shipping lithium batteries by road in Europe. Regulations on how to ship lithium batteries vary depending on which type you are shipping. Typically found in watches and cameras, they contain metallic lithium and are also called primary lithium batteries.

Can I ship lithium ion batteries abroad?

Send Products Containing Lithium Ion Batteries Abroad Safely and Securely If you need to ship products containing lithium batteries internationally then PACK & SEND can help you to package your equipment securely and ensure that the shipment is compliant with regulations wherever you are sending to.

How should lithium batteries be packaged?

When preparing shipments containing lithium batteries, it is important to ensure the batteries are not in any way defective, damaged, or have the potential to produce a dangerous evolution of heat, fire or short circuit. When packaging lithium batteries for shipment, strong rigid outer packaging must be used.

What documents do you need to ship a lithium battery?

Transport Document: For lithium battery shipments, this specifies the UN number, shipping name, hazard class, packing group, and total quantity. Pilot Notification: For shipping lithium batteries by air, pilots must receive written information on the presence and location of lithium batteries.

Are lithium batteries dangerous?

For shipping, all types of lithium batteries are classified as dangerous goods-- with special regulations for packing, labelling, documentation and handling. FedEx adheres to IATA regulations for shipping lithium batteries by air and ADR regulations for shipping lithium batteries by road in Europe.

Does pack & send deliver lithium batteries?

At PACK & SEND we can provide you with a complete packing and delivery service for lithium battery-powered equipment within the constraints of international regulations but be aware that this is a specialist and costly service and not appropriate for domestic lithium batteries not contained in their equipment.

Note. Effective 1 July 2015, all existing customers and new customers who wish to ship lithium metal batteries without equipment (UN3090) via UPS &#174; Air services must obtain pre-approval ...

Low Cost Fireproof Packaging for Shipping/Storing of Lithium-Ion Batteries. Introducing the Thermal Management System (TMS), by Fireproof Solutions. Unlike traditional fire-control ...

Team of battery logistics and DG experts ready to design a solution that meets the complex transport and handling requirements for lithium batteries. Regular DG training to guarantee ...

Here at MSC we are experts in shipping, handling, and processing lithium batteries and other dangerous goods, and provide consultation and advice on all your shipping ...
