

Photovoltaic fixed solar panels for RV carports

Our solar glazed carports are capable of generating 3,000kWh of endlessly renewable electricity per year, enough to power the average plug-in electric vehicle for over 12,000 miles a year in the UK. That means free car travel for life.

Polysolar offers a range of standard Solar Carport designs as well as bespoke solutions, deploying our unique transparent PV glass or conventional solar panels that for the watertight roof.
