What is an AC charging pile?

Therefore, the AC charging pile can be understood as a set of connection and control equipment with a protection system. It implements a unified electrical protocol (national standard regulations) to communicate with the on-board charger to achieve functions such as opening and closing the scheduled charging.

What are the dimensions of the Charging Pile?

The dimensions of a 20kW Charging Pile are: Length (L) = 700 mm, Width (W) = 500 mm, Height (H) = 1650 mm. (Chart 7.1 Detailed Dimension Data of Charging Pile, Unit: mm)

How much does a charging pile cost?

The price of a charging pile can range from hundreds to thousands of RMB, with the main difference being in power. The cost of a 11KW charging pile is around 3000 RMB or more, a 7KW charging pile costs between 1500-2500 RMB, and a portable 3.5KW charging pile is priced under 1500 RMB.
