

Are solar street lights energy independent?

Become energy independent today with Sun-Lite. Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting.

What is vibrant solar street lighting?

At Vivid Solar Street Lighting we design and build carbon neutral solar lighting solutions that work as an alternative to conventional street lighting in both commercial and domestic settings.

Are solar street lights a good choice?

Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting. Also, unlike traditional lighting, LEDs emit almost no heat, making them safer to change and more energy efficient.

Why should you choose vivid solar street lighting?

Vivid's solar lights are both robust and aesthetically focussed, with custom designs that can be tailored to your specific application. Save energy, time, and money with the Helios from Vivid Solar Street Lighting. The innovative Helios using the latest LED technology is ideal, whether situated in a residential, commercial or industrial setting.

Why should you choose Sun-Lite solar street lighting?

By choosing Sun-Lite Solar street lighting, you can light up your business, surrounding roads and car parks with a safe, clean, green alternative. In addition, our team are committed to providing the highest levels of customer service to make the installation process smooth and straightforward.

Can solar street lights be used on a road?

In addition, solar-powered road lighting is immune to power cuts. The road will remain well-lit even if the primary grid fails. Your solar street lights will store energy internally and light up the road for travellers through every season. We can also install temporary solar lighting for use on more minor roads.
