

Is the cost of solar panels tax-deductible?

If a business acquires solar panels on Hire Purchase (HP), it can claim a tax deduction for the interest paid each year, but not the capital cost. The accounting treatment of an asset bought on HP is as if it were purchased outright.

How do solar tax credits work?

Solar tax credits in the form of Investment Tax Credit (ITC) allow businesses to deduct a percentage of solar installation costs from taxable income. This reduction in tax owed significantly lowers the cost of going solar. Homeowners and businesses can get paid for any excess energy they generate with a renewable energy source such as solar panels.

Can I get tax relief for solar PV equipment?

For solar PV equipment, a business can usually obtain tax relief on the interest costs if it borrows money to finance the equipment.

Do you have to pay tax on solar energy?

Households who sell surplus solar energy back to the grid aren't taxed on this income. However, businesses do have to pay tax on SEG income, which is considered as trading revenue. SEG payments can be offset against profits in order to reduce corporation tax liability.

Are solar panels a special rate expenditure?

With effect from 1 April 2012 for corporation tax and 6 April 2012 for income tax, all capital expenditure on the provision of solar panels is specifically designated as special rate. The reason for designating solar panel expenditure as special rate expenditure was to ensure clarity of treatment.

What are solar tax credits & capital investment allowances?

These include capital investment allowances and solar tax credits, which reduce taxable income. The Annual Investment Allowance (AIA) is a type of capital investment allowance that enables businesses to claim tax relief on essential assets, including solar panels.

"If somebody is already earning £30,000 of income and then gets £80,000 a year of solar income, over a 30-year period that is £2.4m of extra income and £900,000 of extra tax, but if they ...
