

What batteries does superbatt make?

That's a range of batteries by Superbatt, made up of the following models: the AGM1100, AGM1000, DT120, LM110, and LM100. This range has become highly popular in the last few years with leisure vehicle owners (campervans, caravans and motorhomes), as well as owners of boats, and for usage as a storage battery, and for solar power systems.

Do superbatt AGM batteries sulfate?

The Superbatt AGM batteries cope much better with high discharge (just don't go above 70% too often). Sulfation is the build-up of lead-sulfate on the battery plates. It throttles the ability of the battery to deliver and store power. If it continues gathering unchecked, it causes the batteries to die.

Is superbatt a good battery?

Today, in Off Grid Power Geek land, we're doing a Superbatt leisure battery review. It's comfortably the top-selling deep cycle battery (ie. leisure battery). We'll take a look at whether it's worthy of that billing. We'll look at what applications it's best for, how well it fits those applications and then you can decide if it meets your needs.

Does a superbatt battery have a self-discharge rate?

Lead-acid leisure battery can have a self-discharge rate from 5-10%, so the Superbatt battery is on the lower end of that scale. That's a direct result of the advanced Calcium technology used in this battery. That means Calcium is present in the battery plates, along with Antimony.

Why are superbatt silver 9000 batteries so popular?

One of the reasons the Superbatt Silver 9000 range of batteries has become so popular is that people are finding that they're lasting well. That's not often the case with a lot of batteries on the market. And the AGM part of the range are lasting particularly well. Why? Well, let's check that out.

Does the superbatt dt120 hold charge well?

We've heard several times from users that the Superbatt DT120 holds charge well. Lead-acid leisure battery can have a self-discharge rate from 5-10%, so the Superbatt battery is on the lower end of that scale. That's a direct result of the advanced Calcium technology used in this battery.
