

The latest foreign battery new energy vehicle brand

What is the freevoy super hybrid battery?

The Freevoy Super Hybrid Battery is "the world's first hybrid vehicle battery to achieve a pure electric range of over 400 kilometers and 4C superfast charging," according to CATL. The days of constant charging are over, with enough electric range for a week's commute.

Which EV battery companies are leading the global EV market?

Over the summer, CATL also opened a first-of-its-kind experience center in China, showcasing its batteries in EVs from Tesla, Volkswagen, NIO, and others. According to data from CnEVPost, CATL leads the global EV battery market with a commanding 37.1% share through August 2024. China's BYD is second with a 16.4% share.

Are batteries a strategic emerging industry?

On December 19, 2016, the State Council released the "13th Five-Year Plan for the Development of National Strategic Emerging Industries", in which the NEV industry was included in the development plan for strategic emerging industries. It shows that batteries, as the power source of NEVs, will be increasingly important.

What is the world's largest EV battery maker?

The world's largest EV battery maker launched its newest product on Thursday. China's CATL unveiled its new Freevoy Super Hybrid Battery, calling it "the world's first" hybrid battery with over 400 km (250 mi) all-electric range. With 4C ultra-fast charging, the new battery delivers an EV-like experience.

Are Power Batteries A key development area for new energy vehicles?

In the Special Project Implementation Plan for Promoting Strategic Emerging Industries "New Energy Vehicles" (2012-2015), power batteries and their management system are key implementation areas for breakthroughs. However, since 2016, the Chinese government hasn't published similar policy support.

Is the NEV battery industry a new industry?

The development of the battery industry is crucial to the development of the whole NEV industry, and many countries have listed battery technologies as key targets for support at a national strategic level, which means that the NEV battery industry as a new industry has stepped on the stage of the development of this era. .
