

Why is the battery icon not showing in Windows notification area?

If the battery icon is still not displayed in the Windows Notification Area after performing all the steps above, Windows may be corrupted. If the battery icon was previously displayed, try restoring Windows to a previous date when the battery icon was visible.

Why is my battery icon missing?

If the battery icon is missing, you won't be able to see how much battery life is left on your Laptop. The most common reason for Battery Icon missing or disappearing from Taskbar is due to Battery Icon being moved to System Tray or due to Battery display in the Taskbar being accidentally disabled.

What if I don't see the battery icon on Windows 10?

If you still don't see the battery icon, go back to the Taskbar settings and click on the "Select which icons appear on the taskbar" link from the Notification area section. Scroll down until you see Power, then toggle the switch to its "On" setting. You should be able to see the battery icon in your taskbar now.

Why is my battery icon not showing on my taskbar?

Your battery icon is most likely disabled or set to not display on the taskbar if it is not hidden in the system tray. The first thing you need to do is fix your taskbar if it is missing its icons and the system tray is empty. You can use taskbar settings to resolve this problem if your taskbar is ok and the battery icon is the only thing missing.

What if the battery icon is not visible on my System Tray?

The first thing to do if the battery symbol is not visible on your system tray is to determine whether it is missing. Your computer may have a battery icon, but it may be hiding some of your secret system tray elements. Tap the system tray's upward-pointing arrow to see if the battery icon is hidden.

How to show battery icon on laptop?

To show the battery icon on your laptop, follow these steps: Click Start, then select Settings. Go to Personalization and choose Taskbar. Scroll to Notification area and click "Select which icons appear on the taskbar." Turn on the toggle for Power. Your battery icon will now appear in the taskbar. First, check the system tray settings.
