

How big is Türkiye's energy storage capacity?

Türkiye's 35 GWh storage capacity accounts for grid-scale projects alone. Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe.

Will Siro supply farasis Energy Europe?

According to earlier information, Siro will also supply customers of Farasis Energy Europe as well as its own customers in the fields of automotive, industrial applications and stationary storage solutions. In addition to cell production, a laboratory for the development of Farasis cells will also be built at the site by the end of 2023.

Where does Türkiye invest in energy storage?

Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe. Tokcan highlighted the importance of local expertise in manufacturing, system management, and maintenance to avoid dependency on foreign firms.

Could Turkey's first battery energy storage system help stabilise the grid?

Image: Aggreko. The first battery energy storage system deployed to help stabilise the electricity grid in Turkey could help show the country's energy sector that more rapid uptake of renewable energy can be feasible and cost-effective.

When will Siro start production of battery modules & packs?

At the end of March, Siro officially started the series production of battery modules and packs. For the time being, imported cells will be processed there until their local production starts: The cell production, which will be built on an area of 60 hectares, is scheduled to go into operation in 2026.

Can Türkiye become a battery hub of the region?

EDEDER will host the Energy and Storage Future Congress in Ankara on Dec. 24 under the theme "Battery Hub of the Region: Türkiye." "We believe Türkiye can become a regional hub for battery technology, and our government is committed to making this a reality," Tokcan said.
