How do I dispose of old UPS batteries?

Old UPS batteries must be disposed of safely and in accordance with special waste regulations. At Source UPS, we can collect your old UPS batteries for certified disposal and offer a battery removal service for larger UPS systems. Lorem ipsum dolor sit amet, consectetur adipiscing elit.

How long do UPS batteries last?

The life expectancy of a UPS battery can vary based on several factors. Despite newer alternatives such as lithium-ion, the standard UPS still uses sealed lead-acid (SLA) batteries. SLA batteries will typically last between 3 and 5 years, compared to lithium-ion which generally have a longer life expectancy.

How do I know if my ups battery is working properly?

Regular testing of your UPS batteries is essential in helping ensure it is working efficiently and providing the required backup power that is needed in the event of a power outage. Schedule a test - Most UPS systems have a built-in test function that allows you to run a test on your battery without disconnecting it from the UPS.
