Surgery to Replace a Pacemaker with a Low Battery . The surgery to replace a pacemaker is usually less complex than the original implantation. This is because the old leads connected to the heart are left in ...

When the batteries go down, I think that is the perfect time to upgrade. First, you probably have had these earphones for around 2+ years. Second, replacing batteries isn't easy, you have to pry open the earphone, and then replace them that only leads to scuffing and compromised ingress protection . So, my advice would be to just upgrade.

Batteries are a choking hazard, especially coin cells and other small batteries. They should always be stored in a place that is out of the reach of toddlers and small children. Good options ...
