

Which battery in the battery pack is broken

Do you repair or refurb a battery pack?

We recell, refurb, and repair Lithium (Li-Ion), Ni-Mh and Ni-Cd battery packs. Our Battery Experts can rebuild and repair the battery pack to fit all popular brands such as Bosch, DEWALT, MAKITA, HITACHI, RYOBI, SnapOn and many more. Each refurbished or recycled pack comes with a 1-year warranty and is rebuilt to high standards. Easy to order online:

How do refurbished batteries work?

How we do it: We exchange all your battery's internal cell with brand new ones. A-grade battery cells used to recell your battery pack. Your refurbished batteries will look as good as brand new and will work in exactly the same way as it used to. We recell, refurb, and repair Lithium (Li-Ion), Ni-Mh and Ni-Cd battery packs.

Should a battery pack be replaced?

If a relatively new pack has only one defective cell and a replacement is located, exchanging the affected cell makes sense. With an aged battery, however, it's best to replace all cells. Mixing new with old causes a cell mismatch that has a short life. In a well-matched battery pack all cells have similar capacities.

Can a battery pack be rebuilt?

Get your battery pack rebuilt with County Battery Services pack rebuilding service. Whether it is Ni-Cd, Ni-Mh or Lithium, we can repair and improve your battery packs to an upgraded standard by exchanging your internal cells to brand new quality battery cells of the same or higher capacity.

How to fix a broken ebike battery?

Step 1: To fix a broken ebike battery, you will need to take the battery pack out of its hard protective casing so that you can get to the cell groups. Step 2: Make sure there are no cracks in the conductor and no burn marks on the cells. Also, make sure there is no liquid coming from anywhere.

Can a battery shop reuse a failed battery pack?

A battery shop may salvage good cells from a failed pack for reuse but the recovered cell should be checked for capacity, internal resistance and self-discharge - the three key health indicators of a battery.
