

Which household battery brand is good to use

What type of battery should I buy?

Shop around for AA and AAA batteries and the main types you'll find are alkaline and lithium disposable batteries. Lithium batteries last a lot longer in more energy intensive devices. We've found that they can give you 2-3 hours more power than an alkaline battery. But they're also much more expensive.

Which AA batteries are best?

We've compared Energizer, Duracell and Panasonic batteries with supermarket own-brand batteries, such as Aldi, Morrisons, Lidl and Sainsbury's, to find the very best. Put a set of one of our Best Buy AA disposable batteries in your most power-hungry devices, such as a camera or torch, and they will last over three hours longer than the worst.

Are best buy batteries any good?

Typically, the Best Buys are also some of the priciest batteries. However, you can save money by opting for high scoring own-brand batteries, where a pack of eight is just a fraction of the price of other Best Buys. Log in to reveal our pick of the best batteries in our tests. Not a member? Join Which? today. Last updated June 2024.

Which rechargeable batteries should I buy?

For a busy household that's always pressing play, consider a larger set of rechargeable batteries to avoid quarrelling. HiQuick offers eight rechargeable AAAs complete with a universal intelligent battery charger that can recharge depleted batteries in three hours. Each one offers 1100mAh of power.

Which alkaline battery is best?

CinemaSound rated the cost per hour for Fuji's EnviroMax AA at the highest of all alkaline batteries they tested, edging out the Duracell Procell. Fujitsu is slightly more consistent in the sense that the battery brands we considered were almost all around the bottom of the pack, with the strange exception of the Fujitsu Universal Power AA.

Which batteries work best in cold weather?

Trailcam Pro tested some batteries' performance in cold temperatures, and found that the Tenenergy Premium AA rechargeable maintained 86 percent of its room temperature capacity even down at 5 degrees Fahrenheit. Next is German manufacturer Ansmann's batteries, which performed very well in independent testing.
