How do I find a solar panel installer?

Use our Trusted Traders search tool to find a solar panel installer in your area. Some energy providers also install solar panels, and might offer alternative financing options. You can find out more about getting solar panels through an energy supplier. How can I ensure my solar panel installation goes well?

How do I choose a solar installer?

Most importantly of all, we would recommend choosing an installer who is a member of an appropriate accreditation body- such as the Microgeneration Certification Scheme (MCS). Without this, you may not be able to sell your excess energy back to the National Grid, or even sell your property with the solar panels included.

Does a solar PV installer need to be registered?

A solar PV installer doesn't legally need to be registered with an accreditation body. However, we would always recommend using an installer who is. MCS is the main regulatory body in the UK for small-scale, low-carbon, and renewable technologies.
