

Will the Moldova Capacitor General Factory be dismantled

Why will Moldova declare a state of energy emergency on 16 December?

Moldova will declare a state of energy emergency on 16 December due to an impending crisis caused by Ukraine's decision not to extend the transit contract for Russian gas after 2025. Meanwhile, the separatist region of Transnistria heavily relies on these gas supplies (see 'Game over? The future of Russian gas transit through Ukraine').

Does Moldova have enough electricity?

As of January 2025, Moldova has been able to purchase enough electricity to compensate for the lack of supply from the plant in Transnistria. But energy costs are already rising rapidly and are significantly more expensive for citizens across the country. The Moldovan government is offering subsidies for some households to help offset the costs.

Is Moldova heading into a 2025 energy crisis?

Moldova is heading into 2025 in an energy crisis, with uncertainty in supply and rapidly rising household costs across the country.

Will Russia cut off a gas supply to Moldova's breakaway Transdniestria region?

The cut-off of Russian gas supplies to Moldova's breakaway Transdniestria region has forced the closure of all industrial companies except food producers, an official said on Thursday.

Will Moldova have to compete for electricity in the winter?

Furthermore, during the winter, Moldova may have to compete for Romanian electricity with Ukraine, which urgently needs power due to damage to its energy infrastructure caused by hostilities. The second scenario involves a complete halt to Russian gas supplies.

What happens if Moldova shuts off gas to Transnistria?

A2: Shutting off gas to Transnistria creates energy instability across Moldova, including but not limited to the Transnistrian region. This uncertainty over access and rapidly increasing costs breed discontent with the current pro-Western Moldovan government.
