

How do I install a battery cabinet?

Between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location. If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet.

How to connect UPS CABINET & Battery Cabinet?

The wiring between the UPS and battery cabinet is to be provided by the customer. When installing external interface wiring (for example, battery breaker shunt trip) to the battery cabinet interface terminals, conduit must be installed between the battery cabinets and the UPS cabinet.

How do you connect a battery cabinet to a ground stud?

Figure 4-4. Battery cabinet bottom joining brackets and ground wire 1. Secure the bracket to the hinges with hardware from the field kit. 2. Route the ground wire from the ground stud in one battery cabinet, under the lower battery tray and through the cabinet-to-cabinet cable access area in the side of the cabinets,

How do I install the 9395 model IBC-L Battery Cabinet?

The 9395 Model IBC-L battery cabinet is designed to be installed in a standalone configuration using up to two battery cabinets. Power wiring is installed externally between each battery cabinet and the UPS or battery disconnect using conduit. Battery

How do you install a battery?

Insert the battery with the positive side facing up. Most devices that use coin or button batteries install them with the positive side facing up, unless they state otherwise. If you don't see any markings on your device, it's generally safe to assume that the positive side of the battery goes in face-up.

Where is the battery cabinet located?

The location for the battery cabinet is on the right side of the UPS cabinet. This location will allow for future expansion using an external module. Cabinets can be permanently bolted to the floor or left standing on leveling feet. Power and control wiring can be routed through the top or bottom of the cabinet depending on installation.

The AC input is used to power the UPS at the top of the battery cabinet, this ultimately provides power to all control circuits. The EMS is located in the top of the battery cabinet and provides ...
