

How do I install a pole mount?

A wood block placed between the pole and conduit will make installation easier. Strapping the conduit directly to the pole works well in most cases - just remember to leave some space for the pole mount install.

Can a solar array be installed on a freestanding pole?

In some cases, you may need to install the solar array on a freestanding pole to achieve the desired location. Once you, the installer, and the customer have determined the best spot to install the solar array, you can discuss other details such as conduit length and trenching.

What safety guidelines should you follow when installing a pole?

Some safety guidelines you should follow include: Wear protective equipment such as gloves and safety goggles to prevent injury from sharp objects or electric shock. Ensure that the installation site has no potential hazards such as water, mud, or loose soil. Use appropriate lifting equipment to lift the pole.

How to install solar panels & brackets?

Assembly of solar panels and brackets: Align the installation holes of the solar panels and brackets and tighten the screws. Pre-assembly of batteries: Place the batteries in the battery box, install the sealing ring, and thread the battery wires from the top cover wire outlet. Cover the top cover, align it with the holes, and tighten the screws.

How do I choose a solar panel installation site?

It should receive sufficient sunlight and there should be no obstacles that may block the solar panel within a 5-meter radius of the site. For example, the installation site cannot be under a tree or near tall buildings, as these areas may have shadows that can affect the solar panel's charging. Avoid underground cables and drainage pipes.

How do you install a pallet pole?

Installers can safely reach the top of the pole using a ladder or a stable platform. This initial step serves as the foundation for the subsequent assembly. Using the provided manual, you can systematically remove the parts from the pallet and secure them onto the pole.
